HANLEY CENTENNIAL BOARD

The Centennial wants to say a big thank you to Hanley Dinner Theatre. For the past 19 years the Hanley Dinner Theatre has entertained us. You have made us laugh, you have made us cry, but most of all, you have made us proud. We have enjoyed your productions and looked forward to November to see what surprises were in store. We appreciate the many dedicated hours given by the executive, the behind the scenes people and, most of all, the tireless actors and actresses for the many wonderful evenings you have given. We thank you for the memories.

The Hanley Dinner Theatre gave the revenue from their productions to the Hall. It was most appreciated, so a **BIG THANK YOU.**

The Centennial Hall board is looking at various fundraising ideas. All ideas are most welcome. We look forward to another busy season with fall and winter activities

HANLEY ROSEDALE FIRE DEPARTMENT

Thank you to a couple of new fire department members, but we still require more volunteers.

We were quite busy this past week, as we responded to four calls. With conditions being very dry, we ask people not to do any burning where not necessary. If conditions continue to be dry, we may have to put a ban on all burning.

Please contact Les Kroeger or come to the fire hall the first Wednesday of the month at 7:00 pm, if you are interested in volunteering for this vital service to our community.

THANK YOU

I would like to thank everyone from Hanley and the surrounding areas for all of their support and encouragement in my track and field endeavors. The golf club fundraiser, the steak supper and many generous donations have helped me financially as I competed throughout this very busy summer. I had meets all over Canada and also had the opportunity to travel to Shenzhen, China to compete in the World University Games, where I placed 9th. I have gained many memorable experiences and have learned a lot as an athlete with these opportunities. I have now taken my training to the next level by moving to Kamloops, British Columbia to train full time at Canada's National Throwing Center. Thanks again for the continued support!

Notes from the Town Office

At the July meeting of Council, Kristy Sletten of Southwest Wind Energy gave a presentation on Wind Turbines. We have recently learned that the Province is extending the “Net Metering Rebate Program” so it is good to have this information on file.

Guy Springette from the Kenaston Office for the Department of Highways also attended the July meeting. A business plan was developed and forwarded to the Saskatoon Office for the Department in hopes that Highways will be able to find funding for the access road into Town. The Kenaston branch was able to take some time to do some patching up to the point where our paving project ended this year. The Council will be budgeting to complete the paving project to 4th St. next year.

We now have Town pins available in the Town Office designed by Laurie Artiss Ltd.

In August, an “Open Outdoor Fire” bylaw was adopted. Please visit the Town’s website or stop by the Town Office for the new regulations.

In September, the retaining wall at the Transfer Station was completed and makes the access to the Loraas bins very convenient. Don’t forget that Loraas charges the Town for switching those containers out so that’s why the Council has implemented fees for dumping. If the fees are not collected, the Loraas charges must be paid from your Town taxes! Thanks to the RM of Rosedale for the use of their heavy equipment and operator that assisted in moving the dirt!

Bullee Consulting has engineered modifications to the water treatment plant that need to be done when the Town is connected to the DRWU pipeline. You will see that we have the pipeline connection at the corner of Washington Ave. & Railway St.

Trees – Be sure to keep the trees in your portion of back alley cut back to allow access and trim up the grass and weeds to keep it looking neat back there.

Over the next couple of months the Council will be doing a “Municipal Government Sustainability Self-Assessment Tool” exercise as suggested by Municipal Affairs. This will help the Council see where we need improvement in sustainability and where they are being effective.

In October the Mayor and Administrator will be attending an “Asset Management” workshop. The Asset listing was completed in 2009 so now we will be learning how to manage that listing and the Town’s assets.
